

NATURE vs NURTURE

NATURE or NURTURE?

Height is mostly genetic, but nutrition and sleep can influence it too.

NATURE or **NURTURE**?

**You learn language from your environment.
It depends on where and how you grow up.**

NATURE or NURTURE?

**You may inherit talent,
but practice and
lessons are key.**

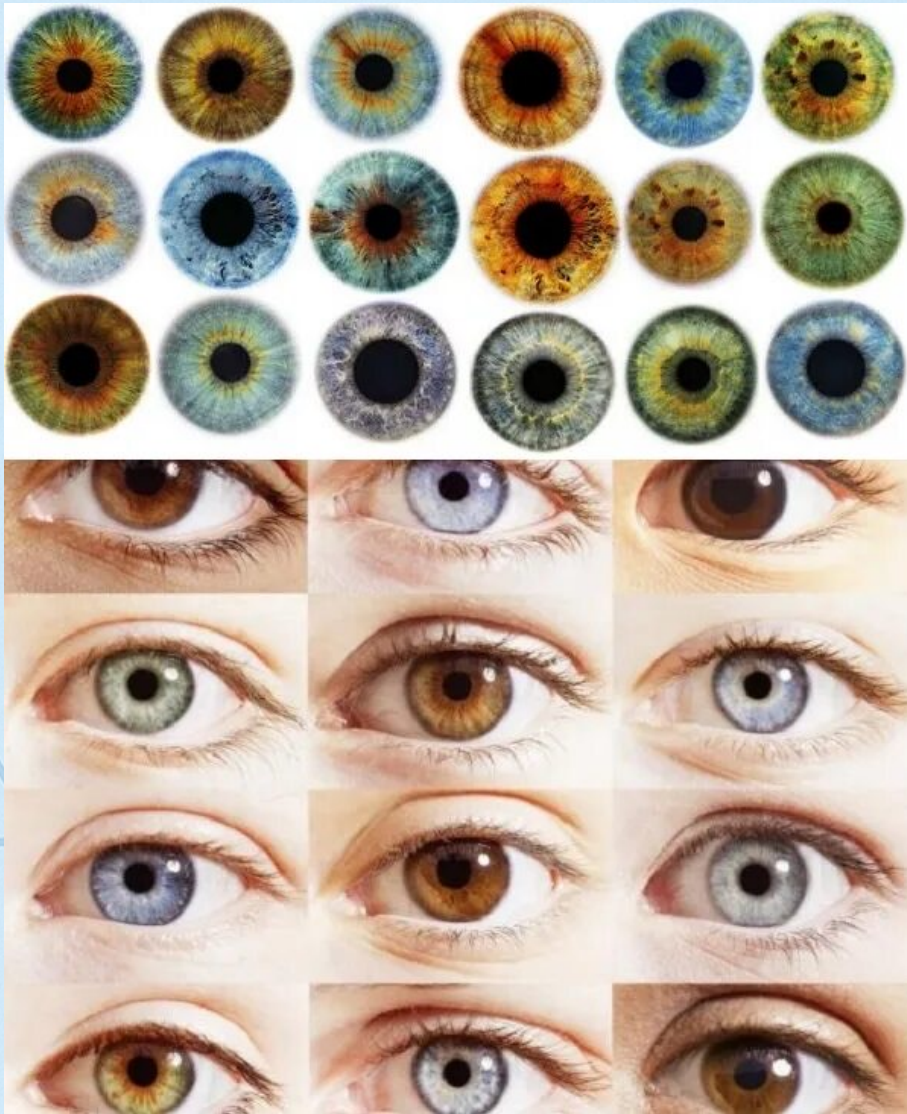

NATURE or NURTURE?

Your culture and upbringing shape what food you like, but some genes also play the role!

NATURE or NURTURE?

**Eye color is
inherited from
your parents.
It's fully
determined
by your genes.**

NATURE or NURTURE?

Freckles are caused by genes and sun exposure. You need both.

NATURE or NURTURE?

Genes affect strength and speed, but training matters a lot.

NATURE or NURTURE?

BLOOD GROUP

Your blood type is 100% inherited from your parents.

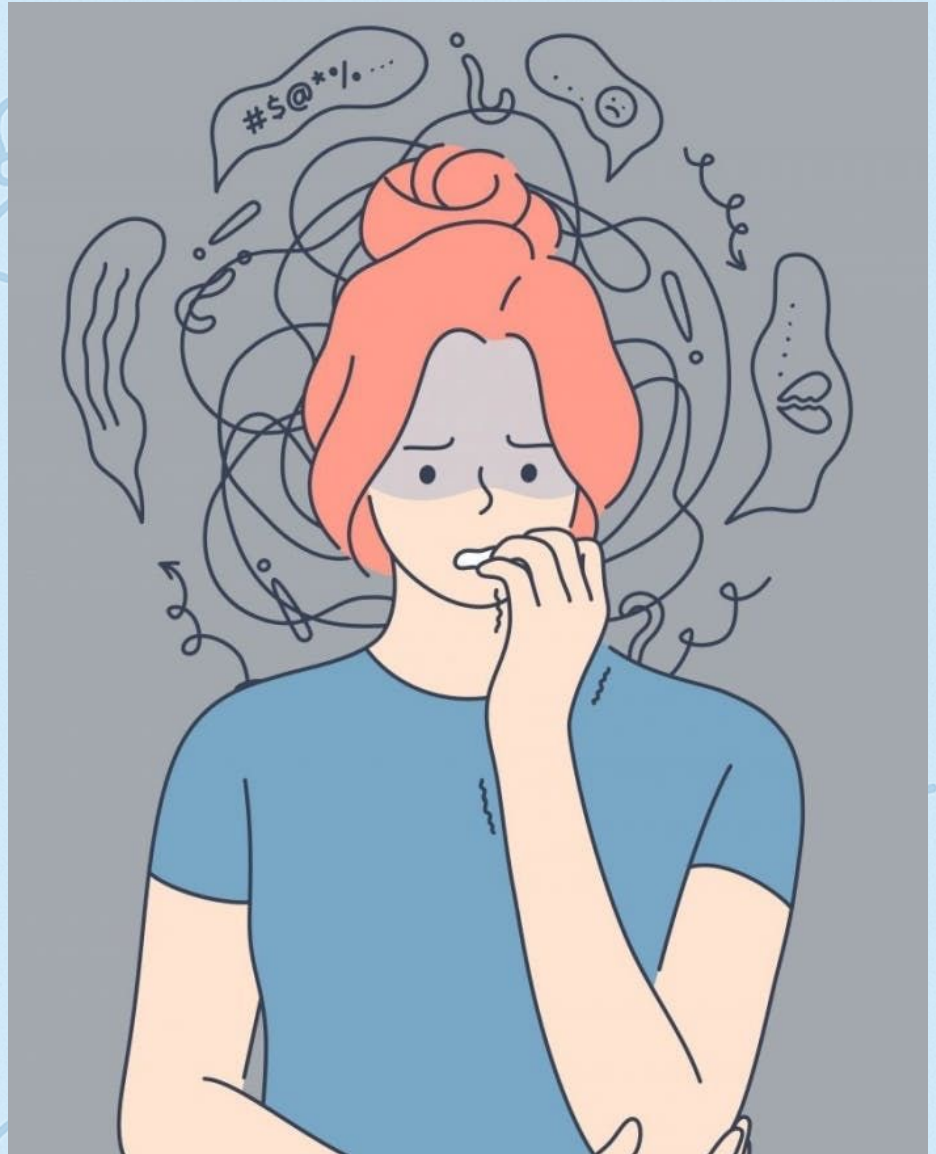

NATURE or **NURTURE?**

Your accent comes entirely from your surroundings.

NATURE or NURTURE?

This can come from experience, but some people are more anxious by nature.

NATURE or **NURTURE**?

You develop it through practice and learning.

NATURE or NURTURE?

Puberty

Genes control when puberty starts, but stress and health also affect it.
